make a difference.*

Become a Stronger Leader With New Skills and Strategic Focus

The California Agricultural Leadership Program has provided an advanced leadership development experience for emerging agricultural leaders for more than 50 years.

- Become a more effective leader for issues facing agriculture, our communities, the state and the nation through a 17-month program.
- Be immersed in topics that include leadership theory, strategic thinking, effective communication, motivation, critical thinking skills, complex social and cultural issues and change management.
